about **Bobike®**

explore the world safely

*Are you ready
to start exploring?*

Bobike® offers a wide range of products to support cycling and commuting adventures safely and in style, while introducing your children to a happy, healthy lifestyle in a fun and playful way.

Bobike®'s bicycle safety seats are designed in the Netherlands, manufactured in Europe, and are recognized for their stylish, modern look. With over 35 years on the market, Bobike® safety seats have received several awards and recognitions, including an iF Design Award and, most recently, the German Design Award, as well as the EQTM (European Quality Trademark) certification.

Unmistakably Bobike®

When you use a product so often, we believe it should look damn good.

That's why the Bobike® collection is continuously updated. Our designers are passionate about fashion and interior design. They closely follow trends to ensure our safety seats match the bicycles currently on the market. This is reflected in the colors we use and in the thoughtful details you'll find in our products — making them unmistakably Bobike®.

we take safety seriously

at Bobike®, we live and breathe safety

in accordance with
EN14344:2022

It might not be the coolest thing to do, but you'll appreciate us for it. Quality control, performance analysis, and safety tests are the most important parts of product development. Of course, we comply with all legal requirements and meet the highest industry standards, but we don't stop there. We have built our own modern quality control center with all the technology required to ensure that our products comply with the standards imposed by regulatory bodies.

*But when we test, we
double the standard.*
It's how we roll.

Bobike® safety seats are recognized with the EQTM label. EQTM recognition was issued by the European Organization for Quality, which is one of the most reputable quality organizations in Europe. The process of obtaining EQTM was professionally managed and controlled by an EQTM Committee. EQTM could be obtained only for products of European origin, and manufactured by companies that are able to continually sustain the agreed quality.

Bobike®, Simply safe

Although Bobike® offers several different models of safety seats, our focus when designing a seat is always the safety of the child that will be transported.

That's why every single Bobike® model features a double-walled construction.

A double-walled construction consists of two sturdy walls.

The outer-wall that is in contact with the child's back, is slightly softer to ensure a comfortable ride. The inner-wall is more sturdy and rigid and is designed in order to create a void between the two walls and therefore the child.

If the seat gets impacted, it won't touch the child.

We often talk about double-walled safety, **a feature that is unique and exclusive of Bobike®**, and hopefully, now you understand what we mean. But if you care as much about your child's safety as we do, you only need to remember one thing; Bobike®.

For more information on double-walled safety, visit:

<https://Bobike.com/en/page/we-take-safety-serious>

we care about the future

sustainable development goals

The ONU Sustainable Development Goals are a call for action by all countries, and for all brands. Bobike® makes part of this global movement and has some real frameworks in Goals 10,12 and 13.

Curious?

*We all have a huge role
to play if we want a
sustainable world.*

Year after year, we focus on reducing our ecological footprint.

-16%
in waste

-21%
in electricity

Taking the “right” steps

GOAL 12 - RESPONSIBLE CONSUMPTION AND PRODUCTION
Less environmental impact in Bobike® 2022 production.

Green packaging

We are renewing the entire brand packaging to make it more efficient and thoughtful, minimizing the use of disposable materials such as adhesive tape, plastic bags, and cardboard. We started with the One® by removing an average of 250g of disposable items per seat. It may seem small, but for 1,000 seats, that adds up to 250kg of reduced materials. Bobike® packaging is fully recyclable and can be repurposed by customers for personal use, encouraging a second life beyond the product. We also use certified paper (FSC®) and have reduced printable areas to use less ink, reflecting our commitment to smarter, more responsible packaging practices.

One® bee friend

Did you know that the livelihood of bees is endangered? Bees play a crucial role in agriculture everywhere and represent an irreplaceable link in food production. Bees help produce more than 30 percent of the world's food.

Alarmed by this news and inspired by the colour of our Bobike® One® mighty mustard, we decided to donate a part of the proceedings of every mighty mustard seat sold, to an organization that helps preserve bees.

Bio-Based materials

Our aim is to continue to come up with the best solutions to develop products made from bio-based materials.

The Bobike® Sleep Roll is made with 50% sugarcane - a bio-based material - which is the main source of sugar in the world and is also important in the production of renewable energy and bio-based materials. It captures and fixes CO₂ from the atmosphere at each annual growth cycle. Sugarcane cultivation is naturally irrigated by the rains in the producing regions and measures are implemented to ensure that its cultivation does not threaten the main areas of biodiversity.

Recycled Materials

Through recycling technology, we were able to transform bicycle seat parts that are rejected in the mass production process into new recycled material and incorporate it into the production of new seats in non-structural components.

ColorADD

the color alphabet

“Reducing inequalities and ensuring no one is left behind are integral to achieving the Sustainable Development Goals.”

United Nations

This framework led Bobike® to join the ColorAdd project so that our colours can be seen by everyone. It’s estimated that are 350 MILLION ColorBLIND WORLDWIDE. So now one you will find this alphabet in our products labels.

How it works

ColorADD is a unique, universal, inclusive, and non-discriminative language that enables the colorblind to identify colours, with a wide spectrum of use on companies/entities whenever colour is a factor of identification, orientation or choice.

Because, colour is for everyone!

90% of all information in the world uses colour to communicate.

1 in 12 male are colorblind.

1 in 200 female are colorblind.

90% of the colour blind needs help buying products.

41% feel some difficulty in socially integrating.

One®

The colorful collection

One® Eco

The optimal balance between safety and environmental responsibility.

Bobike® One® incorporates recycled components.

All Bobike® One® coloured back covers are made from 100% recycled materials and are fully recyclable, without compromising safety or quality.

The Bobike® One® Eco model incorporates 30% recycled material in the exterior shell, making each seat unique. The production process has also been optimized to reduce CO₂ emissions during manufacturing.

For the “Mighty Mustard” colour, a percentage of each seat sold is donated to the Worldwide Bee Saving ONG, supporting environmental preservation.

RESTYLING!

The One now comes equipped with an updated, chic (and secure) harness system adorned with the distinctive Bobike® Logo. Additionally, on the Maxi versions, the Easy Mount System has been enhanced to ensure greater safety. These added features enhance both the style and safety of the One!

One® mighty mustard

For each seat sold in the mighty mustard colour, we gave a percentage for Worldwide Bee Saving ONG. That’s just another way to help preserving the environment.

One® Eco

One® Eco

front and rear bicycle safety seat

Bobike® One® Eco, the best compromise between your child's safety and the protection of the environment.

Through recycling technology, we are able to transform bicycle seats that are rejected in the production process into new recycled material and incorporate it into the production of new seats. The back covers (a non-structural component) are currently produced with 100% recycled material, and are 100% recyclable. The Bobike® One® Eco also has the particularity that the outer shell (a non-structural component) is produced with 30% recycled material, which gives it that unique marbled look and no two eco seats are the same. The best compromise achieved between sustainability and safety.

Our commitment to Planet Earth is to combine sustainability with technology to increase the amount of recycled material, always ensuring safety.

IP Mounting Set (Bar + Bracket)

For bikes without a carrier. If you want to mount a Bobike® seat with EASY adjustment but your bike does not have a carrier, or if your carrier is not compatible, the I Point Mounting Set is your solution. You mount it on the seat tube of your bike and it will fit frames with round tubes with a diameter between Ø 28-40 mm and is suitable for 26", 28" bikes. The I-point Mounting Set complies with the EN14344:2022 safety standards.

Ref. 8015300145

IP Mounting Bracket

The ideal spare part if you want to use your Bobike® One on a second bicycle. Ideal for commuting. Fits frames from Ø28 to 40 mm. Requires 80mm mounting space on the seat tube to be installed. Fits round and oval tubes, and was designed to accommodate the brake cable, preventing it from being pinched. Tools included.

Ref. 8015300142

new

E-bike Luggage Carrier- EASY Mount System (E-BD)

Now with coated rubbers for extra grip and rack protection. The EASY Mount system allows quick, tool-free installation and removal of the seat in seconds, leaving the hardware on the rack or bar for convenient storage or easy switching between bikes if you have an extra E-BD Set.

Fits racks 120-175 mm wide with 10-16 mm round side tubes and a minimum load capacity of 27 kg (ISO 11243:2016). Tools included for E-BD assembly.

Ref. 8015300339

EASY Clamps for Wider and Special Shaped Carriers

Exchange the clamps of your EASY mount plate with these clamps for special carriers and safely mount a Bobike® One® on carriers with a width between 125-180 mm and with round or oval tubes with a diameter between 16-23 mm.

Ref. 8015300200

Maxi Combination Lock - accessory

Extra security and protection for your Bobike® seat, now available as a spare part. The combination lock is easy to install and fits through the little hole in the footrest part of your Bobike® One® rear seat. Length - 85 cm.

Ref. 8015300206

Rain Cover Maxi - accessory

The Bobike® rain cover protects your Bobike® safety seat against rain, snow, or hail. It's lightweight and compact, so it's easy to store and carry with you.

One® junior MIK HD

rear bicycle safety seat only for MIK HD luggage carriers

The ONE® Junior MIK HD bike seat is designed to provide safety, comfort, and convenience for older children riding on the back of the bike. Ideal for kids aged approximately 6 to 10 years and weighing up to 27 kg, it is compatible exclusively with bikes equipped with an MIK HD luggage carrier.

Its foldable strong back support and retractable footrests make it easy to store, even in tight spaces like train stations. When folded, it has a thickness of only 10cm, making it convenient for men who throw their leg over the back of the bike to get on.

The One® Junior is unique on the market for including wheel and foot protection, promoting a safe ride for older kids, along with a safety lap belt and back reflector. The rubberish waterproof TPE cushion offers all the grip necessary for a stable ride.

Go[®] Maxi AVS+

rear bicycle safety seat for AVS+ luggage carrier

Now, every owner of a city- or e-bike equipped with an AVS+ luggage carrier can seamlessly click in a Bobike[®] Go[®] Maxi AVS+ safety seat. By incorporating the AVS+ mounting system, the Bobike[®] Go[®] has expanded its bicycle compatibility and practicality for family transportation.

Family-friendly features and versatility in transportation options are key considerations for Bobike[®].

Tool-Free Installation

With the AVS+ mounting system fully integrated into the seat, the Bobike[®] Go[®] Maxi AVS+ is ready to use straight out of the box. Simply click your seat into the AVS+ carrier, and you're ready to embark on your journey in just a couple of seconds without the need for any additional tools.

Anti-Theft Security

Our integrated anti-theft mechanism ensures that your Bobike[®] Go[®] Maxi AVS+ stays securely attached to your bicycle, giving you peace of mind whether you're stopping for a quick break or leaving your bike unattended.

Go® Maxi spare parts

to replace a lost or damaged part of your Bobike® Go® maxi seat

Footrests

Replacement footrests for the Bobike® Go® maxi. Sold per set, including straps.

Ref. 8015300175

Footrest Straps

Replacement footrest strap for the Bobike® Go® maxi. Sold per set.

Ref. 8015300338

Safety Belt

Replacement safety belt for the Bobike® Go® maxi. Safety buckle that can be operated with one hand, is included. No tools needed.

Ref. 8015300195

Cushion

Replacement cushion for the Bobike® Go® maxi. Waterproof and comfortable.

Ref. 8015300196

Safety Frame Holder

Perfect for commuters – this spare part lets you mount the Bobike® Go® Maxi frame on two bikes. Fits round seat tubes Ø 28–40 mm, needs 105 mm of space on the seat tube. Designed to avoid pinching the brake cable, with a rubber pad for frame protection. Tools included.

Ref. 8015300194

Metal Mounting Bar for frame

Replacement Metal Mounting Bar for your Go® frame's seat. This Metal Mounting Bar also fits in the same frame holder used to mount the Go® frame's seat. This Metal Mounting Bar complies with the EN14344:2022 safety standards and is suitable for 26" to 28" bikes.

Ref. 8015300213

Metal Mounting Bar for Small Frames and 29ers

The ideal solution for bikes with small frames or 29" wheels.

This bar pushes the seat up and back to be placed in a position that will not touch the wheel, after adding the child weight. Only available as a spare part for Go® frames. If you want to use the seat in other 29er bicycle you also need an extra frame holder. If not, you can use the original frame holder included on the Go® Frames.

Ref. 8015300218

Maxi Combination Lock - accessory

Extra security and protection for your Bobike® seat, now available as a spare part. The combination lock is easy to install and fits through the little hole in the bottom part of your Bobike® Go® rear seat. Length - 85 cm.

Ref. 8015300206

Rain Cover Maxi - accessory

The Bobike® rain cover protects your Bobike® safety seat against rain, snow, or hail. It's lightweight and compact, so it's easy to store and carry with you.

Ref. 8015300048

exclusive[®] Plus Tour

the international bestseller

The Bobike[®] Exclusive[®] Plus Tour is specially designed for parents who like to go outdoors with their children. Enjoying nature, taking the bike to go visit the grandparents. The seat is easy to use and offers a soft and luxurious 5-point safety belt.

The Exclusive[®] Plus Tour design blends in perfectly with the current bike trends while offering extra protection due to its involving design shape.

Life is outside. Being outside lifts your spirits and is healthy for body and mind. There is a world for you to explore.

Why not start today?

Exclusive® Plus Tour

Exclusive® Plus Tour

rear bicycle safety seat for frame and carrier mount

The Bobike® Exclusive Tour Plus is the ideal selection for parents who enjoy outdoor activities with their children. The Tour model features an adjustable head protection expanded shell, perfect for extended rides and e-bike tours, offering an additional 10 cm of coverage.

The Carrier version is equipped with the EASY mount system, ensuring quick installation, easy interchangeability between bikes, and adaptable positioning for various carriers and child sizes. It is exclusively compatible with carriers adhering to ISO11243:2016 standards.

The Frame variant prioritizes simplicity, directly attaching to the mounting bar, resulting in a lighter seat that effortlessly fits on both round seat tubes and bikes, regardless of the presence of a luggage carrier.

	 120 - 175 mm / 4,72 - 6,89" carrier load capacity min 27 kg 59 lb in accordance with ISO 11243:2016	 Ø 10 - 16 mm Ø 0,39 - 0,63"	 26 - 29"

Bobike® accessories

for your Bobike® safety seats

From a rain cover to keep your seat dry, to a winter cover to keep your little one warm, discover the full collection of accessories we offer you to keep your baby cozy, comfortable, and safe while exploring the world, no matter the weather or the brand of your bicycle.

For our accessories, we only use materials of the highest quality, just like we do for our safety seats.

*So, no more excuses
to start exploring, no
matter the weather!*

Bobike® Windscreens

to match Bobike® mini seats - compatible with the entire range

Bobike® Grey Windscreens – One color, Two Options

The Windscreen Bobike® Grey with flap features a transparent, sturdy, and shockproof screen, combined with a hard plastic bottom in the signature Bobike® Grey. The Windscreen Bobike® Grey is made entirely from fully transparent, impact-resistant polycarbonate. Both models feature a polycarbonate, impact-resistant screen in the distinctive Bobike® Grey – a neutral tone that perfectly matches all Bobike® front seats. This new color concept ensures a unified, timeless look across the entire range.

There's no such thing as bad weather... only poor preparation.

Protect your baby against wind, rain, and flying insects with a windscreen that not only ensures safety but also perfectly complements your Bobike® Mini seat. Both windscreens fit into the Bobike® Mini mounting bracket and are compatible with the Bobike® A-Head Adapter Plus for greater installation flexibility.

A-head Adapter Plus

for standard and integrated cables headset

The Bobike® A-Head Adapter Plus allows Bobike® front seats to be installed on A-head stems with limited mounting space. With this A-Head set, the required installation space is only 5mm / 0.19".

Specifically designed to fit both standard and integrated cable headsets, as well as MTBs with 1" 1/8 stems, the A-Head Adapter Plus makes the world of child seats more accessible to everyone. In our pursuit of maximum compatibility between bicycle manufacturers and Bobike® front seats, we developed this sturdy, slim bracket to enable mounting on threadless stems, even in tight spaces.

The A-Head Adapter Plus is compatible with all Bobike® front seats that use the front head tube mounting system, and also allows for easy installation of a Bobike® windscreen.

A-head Adapter Plus

for bikes with 1 1/8 stems

The Bobike® A-Head Adapter Plus allows Bobike® front seats to be installed on a-head stems with limited mounting space. With this a-head set, the required installation space is only 4 mm / 0.16".

To make the world of child bike seats more accessible and to maximize compatibility between bicycle manufacturers and Bobike® front seats, we developed the A-Head Adapter Plus — a sturdy, slim bracket that allows you to mount your Bobike® front seat on bikes with threadless stems.

The A-Head Adapter Plus is designed to accommodate adjustable stems, e-bikes with a monitor or controller at the top of the stem, and MTBs with 1 1/8" stems.

Only Compatible with **Bobike® Go** and **One** front seats that use the front head tube mounting system.

The A-Head Adapter Plus also allows you to easily mount a Bobike® windscreen along with your front seat.

Sleep Roll

handlebar with Support Roll

The Bobike® Sleep Roll is produced using 50% sugarcane - a renewable bio-based material.

The Sleep Roll features a soft-touch, ideal for your baby to rest his head and is easy to clean. Available in two colours that match all safety seat colours as well as the current bicycle trends. A must-have for families that go on longer rides or have small children.

In the Exclusive® range, it fits directly on the Exclusive® Plus Mini and the Exclusive® Evolve Mini handlebars. For the Go® and One® Mini, it comes with a special support handlebar that fits both the seat and the Mini bracket.

Winter Cover

multifunctional thermal child and seat cover to keep your baby warm and dry

by **TUCANOURBANO**

The weather should never be a reason for you not to use your bike. In order to make your daily commute as comfortable as possible, no matter the weather, we partnered up with Tucano Urbano to create the softest, warmest Winter Cover.

The Bobike® Winter Cover has a thermal fleece lining, is completely wind- and waterproof, and has a stowaway hood for your child that offers plenty of space to wear over a helmet. Reflective details ensure that you and your child are extra visible in the darker days of the year.

Bobike® Winter Cover can double as a rain cover for the seat when the child is not using it.

Kids Bottles

water bottles for kids

Bobike® has a new collection of kids' water bottles to keep your kid hydrated while playing or riding. These new bottles feature a "shaker" tip type, that will promote the drinking independence of your children since they resemble the grown-up utility bottles. Covering the water flow channel will also increase the cleanness of the drinking contact zone. The tip was designed to provide a regular hi-flow of liquid and to easily be used by tiny hands. All Bobike® water bottles are BPA-free. The new bottles comply with the food contact regulation 10/2011.

transport & mobility

other ways to move with Bobike®

Bobike® has an extensive collection of products to support your adventures safely and in style and to introduce your children in a fun way to a happy and healthy lifestyle.

Above all, we promote cycling mobility as a way of life, and a greater means of transport, so we add to our collection some exclusive accessories to help you and your little ones to move in style.

*Keep moving.
The world is waiting
for you.*

Bobike® trailer *2 in 1*

for 1 or 2 kids, or cargo

The Bobike® trailer is a lightweight 2-in-1 trailer and stroller that is specifically designed for families with an active lifestyle.

With the Bobike® bicycle trailer you get the most out of your active lifestyle. You can share it with your children, no matter the season or your destination.

for biking

With the Bobike® trailer, no matter the season or the destination, your daily commuting has been made easier with this lightweight, and easy-to-use trailer.

You can easily couple the trailer to your bicycle and tackle with 1 or 2 kids plus a small cargo on the back trunk (max. 44kg).

If you are riding and need extra space to transport additional cargo (max.25kg), you can easily fold the kids' seat and get a bigger area for cargo transport.

for strolling

The Bobike® Trailer comes with all the necessary accessories to easily transform your trailer into a stroller.

The stroller features a soft-touch handlebar adjustable in 4 positions, making your tour even more pleasant. On the inside, you will find a wide cockpit with extra pockets for small items, along with a protective foot mat and a comfortable seat, and a 5-point retention system for 1 or 2 kids.

Bobike® trailer

2 in 1

Bobike® trailer

multifunctional bicycle trailer & stroller for 1 or 2 kids

The Bobike® Trailer is a multifunctional bicycle trailer that can be used as a bicycle trailer or a stroller. To use it as a trailer just connect it to the bicycle wheel with the provided mounting system.

Bobike® Trailer can comfortably carry one or two children inside.

The head protection, the net, the soft cushion, and 5-point safety harness system will keep children comfortable and safe during the ride.

Easily go for a walk with your children in the Stroller mode. You just need to retract the front metal bar, adjust the handlebar, and install the front wheel. In just a few seconds, without needing any tools you're ready to go. It can also be used as cargo transport to carry your sports equipment or shopping bags.

safety helmets

safety is our main concern

All Bobike® helmets are approved and meet the Regulation (EU) 2016/425 & EN1078:2012 + A1:2012.

Bobike® has one mission: to help you and your family discover the world in a healthy, happy, and safe way.

*Now, we're introducing our
all-new range of helmets –*

designed to perfectly match every Bobike® seat.

This new in-mold model combines safety, comfort, and style, and is available in a new XXS size, and in a variety of colors that coordinate seamlessly with the entire Bobike® seat collection.

*Offer yourself and your child extra
protection, without compromising on style.*

Bobike® kids helmets

new

Bobike® Kids Helmets

safety helmets xxs, xs & s

We've refreshed our helmet collection — now available in in-mold for all sizes: XXS, XS, and S. Designed to perfectly match the full range of Bobike® safety seats, these colorful matte-finish helmets not only look great but also deliver top-tier protection.

Featuring an in-mold construction and an expanded protective area, our helmets are built to keep your little one safe. The adjustable dial retention system guarantees a snug, custom fit, while soft chin straps with padding and a 3-point safety harness ensure comfort and security.

Equipped with two reflective stickers for improved visibility in low light, a bug net to keep insects out, and 10 cooling vents to keep your child's head cool on every ride.

Fully compliant with Regulation (EU) 2016/425 and EN1078:2012 + A1:2012 standards.

kids Plus helmets

safety helmets xs & s

Designed with in-mold construction, this helmet provides enhanced rear-head protection. Reflective decals improve the child's visibility on the road. It's available in five graphic designs that spark your child's imagination and suit different head sizes. With 11 vents and an integrated bug net, it keeps your little one cool and insect-free.

The slim DIAL adjustment system, thermoformed inner padding, and chin pad ensure a snug, comfortable fit. Soft colors and charming designs enhance cuteness. An extra set of padding is included.

Meets EU Regulation (EU) 2016/425 & safety standard EN 1078:2012 + A1:2012.

exclusive[®] helmets

safety helmets xs & s

With in-mold construction, this matte-finished model offers enhanced rear protection, along with reflective safety stickers to increase your child's visibility on the road. Eleven vents help keep your child's head cool, while a built-in bug net protects against flying insects. The comfortable DIAL fit system and thermoformed inner padding enhance both fit and comfort for everyday use. Complies with Regulation (EU) 2016/425 and EN1078:2012 + A1:2012.

One® Plus helmets

safety helmets xs & s

The One® Plus helmets feature an in-mold construction and an extended protective area for enhanced safety. The adjustable dial retention system ensures a secure and comfortable fit. Soft chin straps with a chin pad fasten with a 3-point safety harness. Two rear reflective stickers improve visibility in low-light conditions. A built-in bug net protects your child from flying insects, while 10 cooling vents help keep their head cool. The matte finish adds a sleek, modern look. Complies with Regulation (EU) 2016/425 and EN1078:2012 + A1:2012.
