

Creativity starts here.

# Play with Care

dantoy is a proud Danish family-owned company with a passion for developing toys that children and parents can trust.

Our products are designed with a focus on play, learning, and, most importantly, responsibility and durability.

Allmost all our toys are produced in **Denmark**, focusing on durability and eco-conscious solutions.

That's why most of our range is certified with the **Nordic Swan Ecolabel** ensuring strict environmental and health standards.

*We have chosen the Nordic Swan Ecolabel because it is one of the world's strictest and most ambitious environmental labels. We did it for you. And for the environment.*

*At dantoy, we believe that great play goes hand in hand with care for both children and the planet.*

# Hard to earn but easy to choose

"The Nordic Swan Ecolabel is one of the world's toughest and most ambitious ecolabels."

It helps consumers and businesses choose among the most eco-friendly products and services.

The label sets strict requirements for environmental, health, and quality aspects across every stage of a product's life cycle, from raw materials to disposal, ensuring sustainability at every step.

## Key points:

- The official ecolabel in the Nordic region
- Strict criteria for environment, health, and quality
  - Covers the entire product life cycle
- Helps consumers make sustainable choices

[www.svanemaerket.dk](http://www.svanemaerket.dk)

***"With the help of the Nordic Swan Ecolabel,  
we ensure that we constantly choose the right suppliers  
and focus on ethics, the environment and health requirements.  
We experience that the Nordic Swan Ecolabel is more relevant than ever."***

Marck Andre Højbjerg Matthiasen  
CEO at dantoy

# Sustainability in focus

For us, sustainability isn't just a goal – it's an integral part of how we think, design, and produce.

Our products are nearly 100% recyclable, and our design ensure long life and minimal environmental impact.

When a product is built to last, it reduces the need for replacements – and in turn, reduces overall resource consumption.

In addition, we closely monitor our resource use and are actively seeking out new, more sustainable and recyclable materials to incorporate into our products.

All our packaging and wooden products are **FSC certified**, meaning they come from responsibly managed forests that respect nature, wildlife, and local communities.

We're also highly conscious of the energy we consume. Our entire operation – including production, warehousing, and administration – runs exclusively on certified green electricity.

***Our goal is to combine functional and aesthetic design with environmental responsibility – for the benefit of both our customers and the climate –***

## Awards and certifications

Dantoy is one of the largest toy manufacturers in Scandinavia, and we are aware of the responsibility we hold.

Therefore we are proud and thankful for the recognition we have received.

# Dantoy supports UN's 17 goals

We are committed to developing Dantoy in alignment with the UN's 17 Sustainable Development Goals.

Dantoy supports the UN's 17 goals through various initiatives. These include setting environmental requirements for suppliers to meet Swan certification standards, making donations, purchasing green power, and more.

Dantoy selects a few of the UN's 17 goals to focus on for a period of time before shifting attention to new goals. We are currently mainly focusing on goals 12, 13, and 17.

## 12. Responsible Consumption and Production

At Dantoy, we ensure a responsible production process by manufacturing our plastic toys in-house at our factory in Denmark.

Dantoy demands responsibility from suppliers regarding production and environmental standards.

We focus on reducing packaging, sorting, and reusing materials.

## 13. Climate action

We use 100% certified green electricity.

We are increasing the amount of recycling in packaging — both cardboard and plastics.

We are increasing the utilization of our production waste.

We will reduce our consumption of fossil fuels by switching to hybrid vehicles for our sales cars.

## 17. Partnerships for the goals

Most of our market is certified with the Nordic Swan Ecolabel.

Dantoy is a partner in Operation Clean Sweep. - an organisation working towards a cleaner environment.

# Important symbols of quality

Blue Marine Toys are made from maritime gear e.g. nets, trawls and ropes from the fishing industry.

Made from 100% recycled, Nordic Swan Ecolabelled materials collected from in-house production.

Bioplastic toy, made of at least 90% sugarcane, a sustainable raw material. Our bioplastic is 100% recyclable. dantoy BIO products are of the same high quality as our conventional plastic toys.

**FSC** stands for Forest Stewardship Council, an international organization that promotes responsible management of the world's forests.

The Braskem "I'm Green" symbol may only be used if the amount of sustainable raw materials contained in the product has been verified. "I'm Green" PE (bioplastic) is made of at least 90% sugarcane (ethanol). Ethanol, a form of alcohol, is extracted from sugarcane, after which it is used to make bioplastic.

Plastic toys that carry the Nordic Swan Ecolabel comply with one of the world's most stringent environmental certifications. Ecolabelled products may not contain phthalates, synthetic fragrances or endocrine-disrupting chemicals (EDCs). To qualify for eco-labelling, the entire life cycle of the product, from raw material to production, use, disposal and recycling, is assessed.

99% of dantoy's plastic toys are both designed and manufactured in-house at our office and factory in Hobro, Denmark.

All dantoy toy products comply with the European EN71 standard, and our products therefore meet the safety requirements for toys sold in the EU. Our child use and care articles, cutlery, drinking and feeding utensils are certified in accordance with EN14372 and EN14350.

dantoy is certified to environmental standard ISO 14001, which means that via environmental focus, the company aims to minimise harmful environmental impacts by using sustainable processes, minimising consumption of energy, water and raw materials, recycling spillage and waste, and maintaining a healthy working environment.

dantoy is certified to quality standard ISO 9001, which obliges us to observe high standards, including uniform quality, product safety, quality control and assurance (taking random samples and testing), as well as written procedures that ensure that our production processes are standardised.

All dantoy toy products carry the CE mark, a key indicator of product compliance with the EU legislation that enables the free movement of products within the European market.

dantoy is "Der Grüne Punkt"-accredited. This is a German eco-label implemented by Duales Systems Deutschland GmbH that verifies that dantoy collects and recycles used packaging.

dantoy is a partner in Operation Clean Sweep, an organisation working towards a cleaner environment whose aims include reducing the discharge of plastic granules from manufacturing companies into the sea.

All dantoy are approved for food contact **except Blue Marine, Classic Recycled and Recycled Pastels.**

All dantoy products are dishwasher safe, **except for items containing metal parts and Playful Wood.**

All dantoy products with this label are microwave safe.

# classic RECYCLED

Same classic look – but different

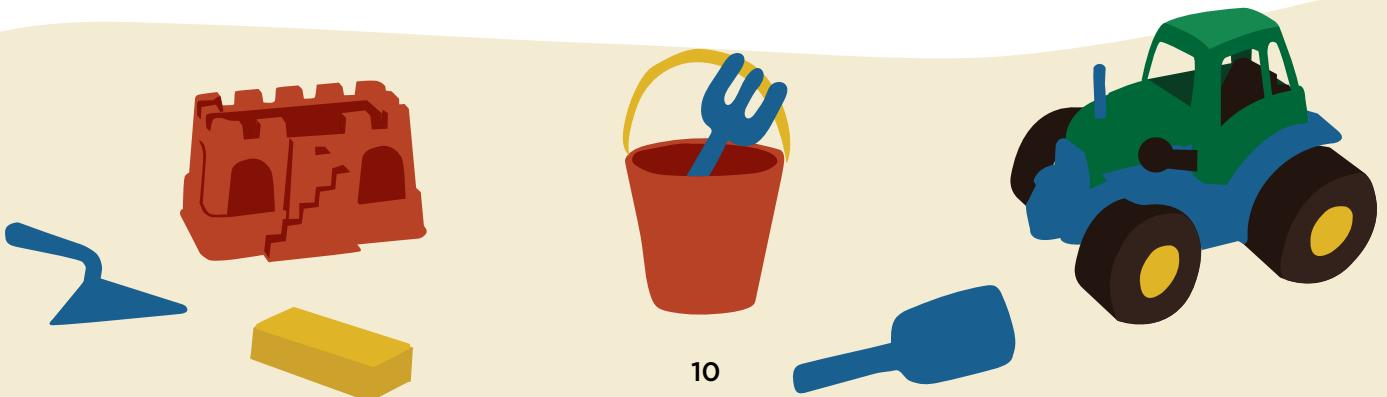

Same quality. Same durability. Same colors as our beloved Classic series – but with a fresh, modern look.

The matte finish gives a soft, elegant appearance without compromising on fun and play.

Produced in Denmark and Nordic Swan Ecolabel certified.

Classic Recycled – because great play deserves a new beginning.

## Classics Through Generations

For more than 60 years, our toys have brought color to children's play with the same bright colors, the same high quality, and the same joy of creating.

The toys spark imagination and creativity, inviting children to immerse themselves in role play and open-ended fun – both indoors and outdoors.

They are Nordic Swan Ecolabelled and made to last – toys that can be passed down and loved by children of all ages.

**Play. Imagination. Quality. – A hit through generations.**

# RECYCLED PASTELs

## FROM WASTE TO PLAY

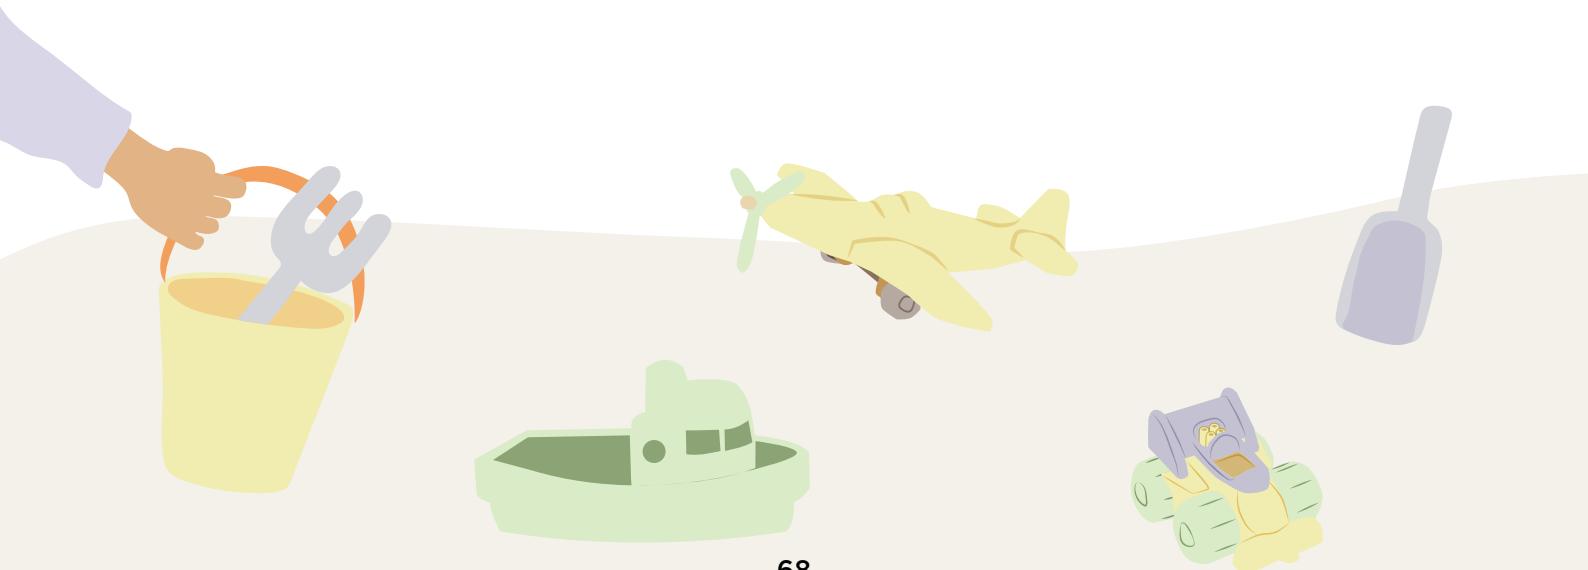

The Recycled Pastels toy series is made from recycled plastic and produced in Denmark and Nordic Swan Ecolabel certified.  
– with both play and nature in mind.

The soft, beautiful colors and durable design invite hours of creative and imaginative play.

By recycling plastic, we give materials new life and create toys that children can enjoy for many years.

# BIOplastic

## Made from sugarcane

Discover a new way to play and create with our BIOplastic! Made from sugarcane and with over 90% bio-based content, this plastic is a safe and high-quality alternative to conventional plastic.

100% recyclable – perfect for hours of fun both indoors and outdoors.

BIOplastic comes in vibrant colors and inspires creativity, role-playing, and imaginative projects. Produced in Denmark with a focus on quality and durability, so children can play safely and freely.

Quality. Safety. Creative play. BIOplastic.  
Build – Inspire – Overcome

# FAIRYTALES

## Princess and Thorbjorn

A Fairytale Filled with Colour and Play!

This toy series is made for little princes and princesses who love to dream, build, and create their own magical worlds. Host a tea party with cupcakes, make colourful ice cream cones, or build the most beautiful castle – at home or at the beach.

Bring the lovely colours out into the sunshine, fill the buckets with sand – only imagination sets the limits!

The toys are Nordic Swan Ecolabelled, so you can play with a clear conscience. Produced with care and proudly made in Denmark.

Play, dream, and create – just like the prince or princess you are!

**play and imagination in the great outdoors**

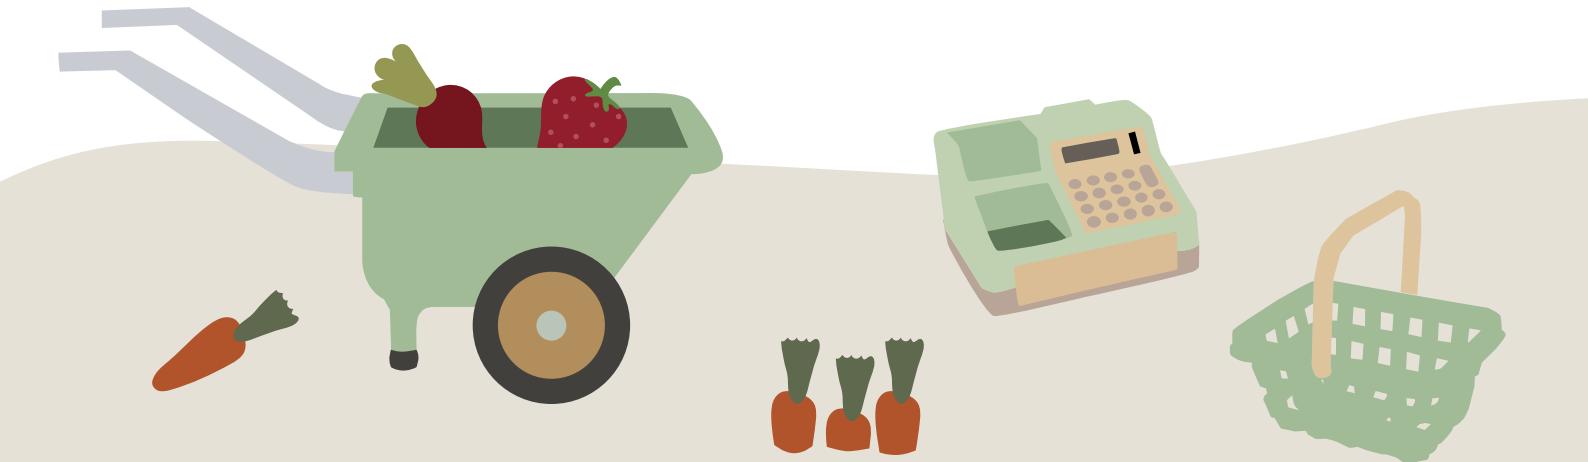

Green Garden is a charming toy series that invites children to creative play in the garden, the kitchen, or as a little shopkeeper.

The series combines role play and nature-inspired themes in soft, muted colors that create a calm and inviting look.

The toys are designed to encourage imagination, creativity, and social skills through play with food, gardening, and shopping activities, from durable materials that stand up to play time and time again.

Produced in Denmark and Nordic Swan Ecolabel certified.

**Danish design, high quality, and endless imaginative play.**

**made from recycled fishing gear**

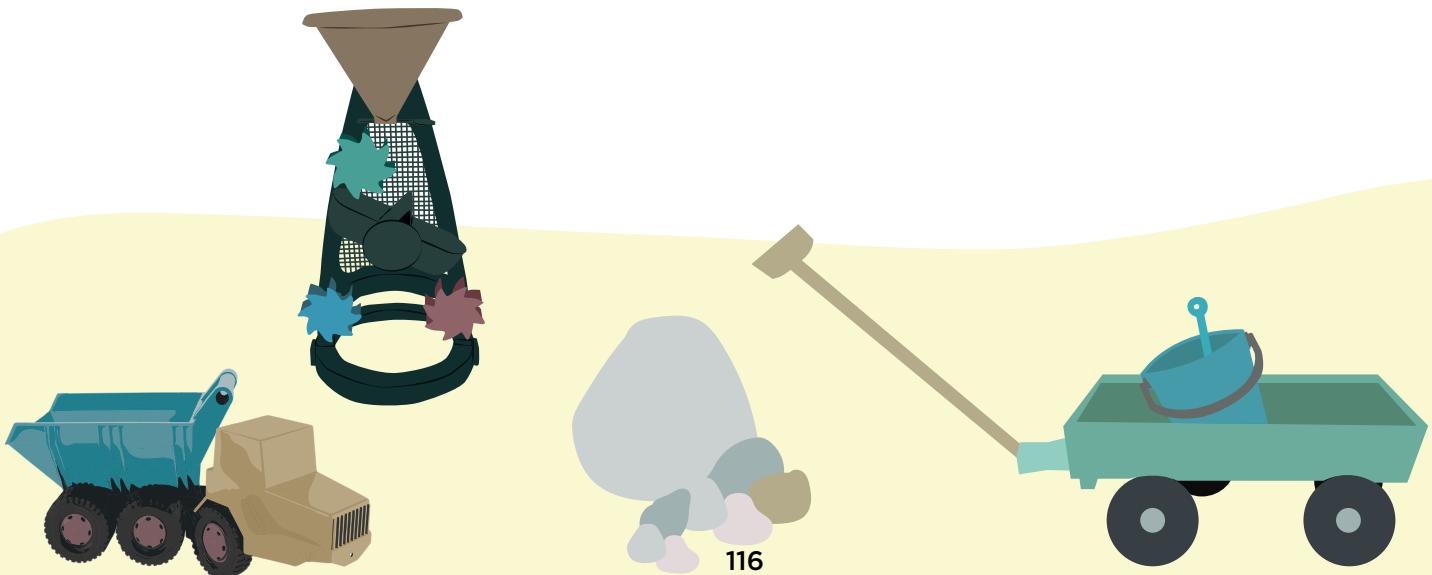

Discover the Blue Marine collection – created with care for both children and the planet. Our products are made in Denmark from recycled materials sourced from the fishing industry – a unique initiative where leftover resources are given new life as durable and safe toys.

The colors are inspired by the shades of the sea – from deep blue and turquoise to sandy tones – inviting imaginative play both indoors and outdoors.

The toys are robust, timeless, and designed for many hours of creative play, allowing children to play with a clear conscience.

A thoughtful choice that nurtures creativity and the joy of caring for our planet.

## From Waste to Play – with Care for the Planet

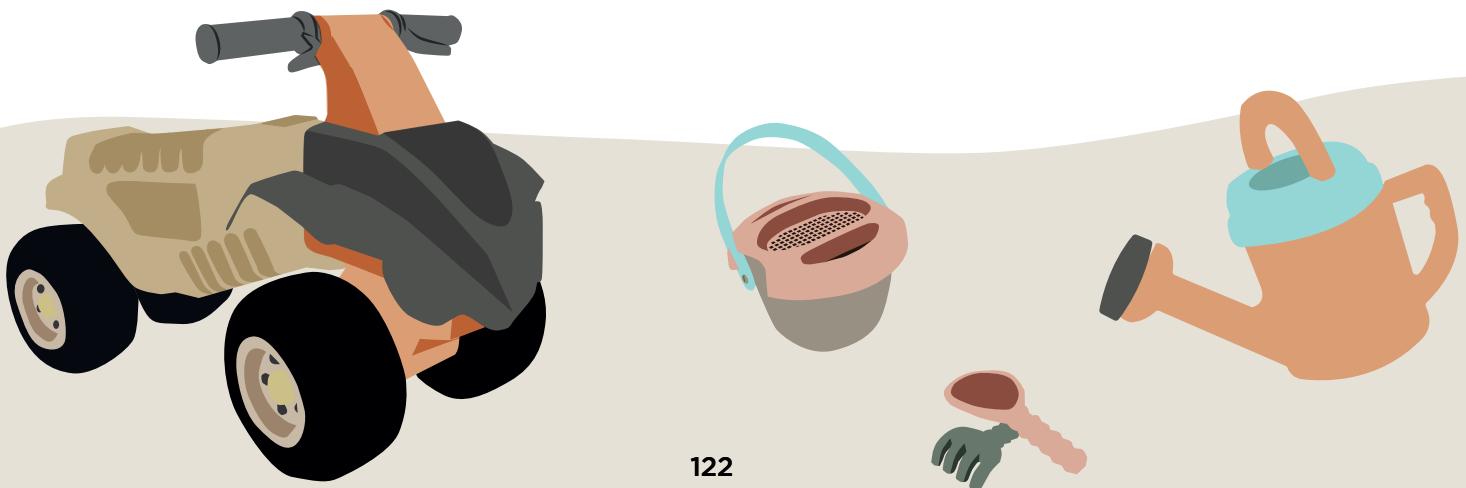

Green Bean series is created with care for both children and the planet.

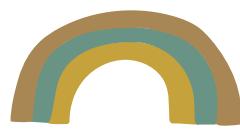

The collection is made from excess plastic from our own production – recycled and given new life instead of going to waste. It's our way of reducing waste and protecting the future.

Each product has its own unique look, as the colors depend on which materials are left over in production. No toys are exactly alike – but all share the same high quality, durability, and safety you know from us.

The toys are Nordic Swan Ecolabelled, designed for hours of play and creative expression – and proudly made in Denmark.

**Nothing goes to waste – not materials, not quality, not the fun!**

# Make & Create

*Creativity is the magic  
in everyday moments.*

*With beads, modeling clay, and colorful  
materials, everyone can play, explore, and  
create their own unique  
universes.*

*Here it's all about ideas, play, and  
curiosity - not about getting it perfect.*

*Shape, build, design, and invent! When  
imagination takes the lead, the most  
wonderful figures, patterns, and stories  
come to life.*

# Snow

*"The sleds soar down the hills, snow spraying in all directions, while we dig tunnels and fortresses with our little snow shovels, like tiny explorers on a grand expedition.*

*Red cheeks and peals of laughter follow every thrilling race, echoing through the crisp winter air. With each icy slope and snow-covered path, a new adventure unfolds.*

*The magic of winter is alive, and we are right in the middle of it!*
